Key Performance Indicators

Total Bookings (in millions)	\$ 222.9	\$ 260.1	\$ 287.1	\$ 291.7	\$ 295.9
Total CLEAR Members (in thousands)	33,472	35,751	37,998	40,986	43,501
Active CLEAR+ Members (in thousands)	7,227	7,399	7,616	8,167	8,329

Definitions of Key Performance Indicators

To evaluate performance of the business, we utilize a variety of other non-GAAP financial reporting and performance measures. These key measures include Total Bookings, Total CLEAR Members, and Active CLEAR+ Members.

Total Bookings

Total Bookings represent our total revenue plus the change in deferred revenue during the period. Total Bookings in any particular period reflect sales to new and renewing CLEAR+ subscribers plus any accrued billings to partners. Management believes that Total Bookings is an important measure of the current health and growth of the business and views it as a leading indicator.

Total CLEAR Members

We define Total CLEAR Members as the cumulative number of Members that have registered for the CLEAR platform since inception as of the end of the period. This includes Members who have enrolled through CLEAR+, trials, single-use product purchases, other non-paid uses of the CLEAR platform, and associated family accounts. Total CLEAR Members exclude members who are solely marketing opt-ins and purged accounts, and are adjusted to remove identified duplicate non-paid accounts. Management views this metric as an important tool to analyze the efficacy of our growth and marketing initiatives as new Members are potentially a current and leading indicator of revenues.

Active CLEAR+ Members

We define Active CLEAR+ Members as the number of members with an active CLEAR+ subscription as of the end of the period. This includes CLEAR+ members who have an activated payment method, plus associated family accounts and is inclusive of Members who are in a trial or in a billing grace period. Management views this as an important tool to measure the growth of its CLEAR+ product.

Prior period Active CLEAR+ Members have been recast to reflect the removal of certain lapsed accounts identified in connection with a billing system transformation project undertaken during 2025. This recast had no impact on our consolidated financial statements or non-GAAP financial measures. There has been no other change in the calculation of Active CLEAR+ Members.

Non-GAAP Financial Measures

In addition to our results as determined in accordance with GAAP, we disclose Adjusted EBITDA, Adjusted EBITDA Margin, and Free Cash Flow as non-GAAP financial measures that management believes provide useful information to investors. These measures are not financial measures calculated in accordance with GAAP and should not be considered as a substitute for net income, net income margin, net cash provided by (used in) operating activities or any other operating performance measure calculated in accordance with GAAP, and may not be comparable to a similarly titled measure reported by other companies. Our Non-GAAP financial measures are expressed in thousands, unless otherwise indicated. We periodically reassess the components of our Non-GAAP adjustments for changes in how we evaluate our performance and changes in how we make financial and operational decisions to ensure the adjustments remain relevant and meaningful.

Adjusted EBITDA and Adjusted EBITDA Margin

We define Adjusted EBITDA as net income adjusted for income taxes, interest (income), net, depreciation and amortization, impairment and losses on asset disposals, equity-based compensation expense, net other (income) expense excluding sublease rental income, acquisition-related costs and changes in fair value of contingent consideration. We define Adjusted EBITDA Margin as Adjusted EBITDA expressed as percentage of revenue. Adjusted EBITDA and Adjusted EBITDA Margin are important financial measures used by management and our board of directors ("Board") to evaluate business performance. We believe Adjusted EBITDA and Adjusted EBITDA Margin assist investors in evaluating the performance of the Company's core operations by excluding certain items that impact the comparability of results from period to period.

Free Cash Flow

We define Free Cash Flow as net cash (used in) provided by operating activities adjusted for purchases of property. We believe Free Cash Flow provides useful information to management and investors about the Company's liquidity and cash flow trends. With regards to our CLEAR+ subscription service, we generally collect cash from our Members upfront for annual subscriptions. As a result, when the business is growing Free Cash Flow can be a real time indicator of the current trajectory of the business.

See below for reconciliations of these non-GAAP financial measures to their most comparable GAAP measures.
